PROFESSIONAL SUMMARY

AI Automation Specialist who designs, develops, and deploys AI-powered workflow automation for businesses, including intelligent AI agents, CRM automations, API integrations, and process optimization built with n8n, Make.com, Zapier, GoHighLevel, and OpenAI. Automations delivered for clients worldwide have saved hundreds of hours through systems running 24/7.

EDUCATION

Holy Cross of Davao College	Davao City, Philippines
Bachelor of Science in Customs Administration	2021 – 2025

EXPERIENCE

Freelance Workflow Automation Specialist	January 2025 – Present
---	------------------------

Remote / Davao City, Philippines

- Design and build automated workflows using Zapier, Make.com, and n8n that connect business apps, eliminate manual tasks, and run 24/7 for clients worldwide.
- Built AI-powered systems for client follow-up, lead capture and enrichment, meeting transcription and summaries, content repurposing, and document processing using OpenAI, Apollo, Asana, Slack, Gmail, and Google Drive.
- Set up CRM automations and integrations in GoHighLevel and HubSpot, including scheduling with Calendly and payments through Stripe via API.

Radio Philippines Network, News Writer	October 2022 – January 2026
---	-----------------------------

Davao City, Philippines

- Researched, wrote, and edited news stories for radio broadcast covering local events, politics, crime, and public-interest topics, contributing to informed community discussions.

TP (Teleperformance), Customer Service Representative	February 2022 – December 2024
--	-------------------------------

Davao City, Philippines

- Handled a telecommunications account, assisting customers through inbound and outbound calls.
- Provided customer support, resolved issues, answered inquiries, and promoted products and services to achieve sales targets.
